

2021 puppy program overview

Breeding Generation Information:

We are planning on breeding for F1b goldendoodles, F1b Aussie doodles and Sheepadoodles (F1, F2, F1b) in the year 2021.

Training included when you purchase a puppy.

Here at no goats I have a great passion for breeding wonderful puppies. Part of this is finding and selecting the best, healthiest parent dogs with the best temperaments and dispositions. We have found the parents of our puppies contribute a lot to the general overall temperaments of our litters.

We give each puppy a great "jump" start into life. Training with the puppies begin at 3 days old and continues until the day you pick them up. We use an advanced training program utilizing puppy culture teachings. You may ask why I am putting so much time and effort into training a puppy under 8 weeks old. I have found by using advanced training and socialization techniques, I am installing the "software" for future training that you as puppy parents can leapfrog onto and start training immediately.

I try to create confident, problem solving, outgoing puppies who will be better prepared to enter your home. Utilizing Puppy Culture teachings I integrate sounds, textures and experiences to better prepare them for the real world. It is a gathering of puppy raising protocols that will better prepare them for what they will experience in their new homes and the world. I try to focus on the early weeks of puppyhood to positively impact your puppy, this early focus will allow you to positively impact your puppy training with minimal effort rather than later trying to correct behavior for months or years that we find unacceptable.

What all this means to you is I give you a head start of your puppies training. I spend close to 100 hours with each puppy in training, socialization and exposing them to new things. Some of the things I teach with each puppy that leaves my farm.

- Litter box training
- Soft Mouth training
- Leash training
- Crate training started
- Place start training

- Startle training
- Patience and self soothing
- Manding
- Problem solving
- Enrichment seeking

We spends hours with each puppy habituating them to:

- Feet & ear handling
- Grooming sights and noises
- Car rides
- Different types, colors, body types, hair colors of people
- Costumes
- Sirens and other common day to day noises
- T.V. & radio noises
- Different types of flooring
- Going different places

One of the greatest tools I instill in each puppy is Manding. A puppies natural language to get what they want is to jump up on members of the pack and humans. This is a very common and cute thing when the puppy is tiny but when it reaches 40 plus pounds trying to correct this behavior or habit is a hard feat. I teach them to "Mand" or come and sit at your feet when they want something.

All this additional training provides the puppy a stable base of experience, it gives the puppy the confidence it needs to step into the world. The training sets the stage for you as a pup parent to begin training right away because they are conditioned from the start to learn and seek enrichment and fulfillment by looking to you.

Anticipated Litter breeding & hopeful due dates

Litter Born date

Apr/May/June	F1 litter Sheepadoodle (Old English x Standard Poodle)
Apr/May/June	F1b Reverse Sheepadoodle (Sheepadoodle x Old English)
May/Jun	F1b Goldendoodle (Goldendoodle x Poodle)
May/Jun	F1b Reverse Sheepadoodle (Sheepadoodle x Old English)

Jun/Jul	Party Standard Poodle
Jun/Jul	F1 Sheepadoodle
Aug/Sep	F1b Reverse Sheepadoodle (Sheepadoodle x Old English)
Sep/Oct	F1b Aussie doodles (Aussiedoodle x Standard Poodle)
Sep/Oct	F1 Sheepadoodle (Standard Poodle x Old English)
Sep/Oct	F1b Sheepadoodle (Sheepadoodle x Old English)

How deposit works

Once you place your \$500.00 deposit your name is added to the master list. When a litter is born and I determine how many puppies are available I then start texting everyone on the master list. Once contacted you will have the opportunity to commit to that litter. If you commit you are saying I will be taking a puppy from this litter. When contacted for litter commitment you will know what selection choice you are (Example: the letter will say you would have 5th choice in the litter). If you choose to **NOT** commit to that litter and pass, your name remains on the master list and your name moves up the list on selection order as people decide to commit to a litter. If you commit to a litter then later decide you do not want a puppy your name goes to the bottom of the list.

Example:

Master list

1. Meredith A.
2. Flo B.
3. Mikey C.
4. Grover D.
5. **Your name here**
6. Mondo E.

A litter of 6 Aussiedoodle puppies are born, you are contacted and asked if you want to commit to the litter. You only want a Sheepadoodle so you say, "No thank you I will wait on the next litter." but everyone in front of you wants an Aussiedoodle so your name moves up the waitlist for the next litter.

New Master List after Aussiedoodle Commitment

1. **Your name here**
2. Mondo E.
3. Shadow F.
4. Chase G.

On Gotcha day your final payment for the puppy is due. The total cost for the puppy is \$2500. All puppies are vet checked, wormed, received age appropriate shots and have a health warranty. It is my goal to never have one of my puppies/dogs end up in a shelter and on your contract at gotcha day there is a clause that **states the dog/puppy can always come home at any point in its life.**

Deposit is \$500.00 (non-refundable, if you change your mind) and total cost of puppy is \$2500.00

In 2021 we are initiating a board and training program that you can utilize, we are still developing the cost of this program but it will include but not limited to.

- Advanced crate training

- Advanced socialization training

- Advanced potty training
